

## Canora Baseball Park Baseball Diamond Renovation

### Project overview

Lush Lawn Irrigation of Saskatchewan Canada led a baseball diamond renovation install at Canora Baseball Park under the leadership of Matthew Temple, Irrigation Manager.

Temple wanted to ensure comprehensive coverage in a turf with heavy seasonal foot traffic. To improve water efficiency in this expansive field, 20 K-Rain® ProSport® rotors were installed along with 1,900' of 2" pipe and 400' of 1" pipe. The ProSport® is specifically designed for sports turf applications with a triple nozzle configuration that provides even water distribution across a radius of 45'-77'.

The Canora diamond field was completed in August of 2020 and is expected to host team competitions beginning in the Spring of 2021.
