

# RAIN SENSOR

The Rain/Freeze and Rain Sensors will turn your irrigation controller into an expert water manager by efficiently suspending watering during rain and/or freeze periods.

- Weather resistant. Engineered with impact modified, UV resistant polymer for outdoor exposure.
- Maintenance free. No batteries to replace.
- 2 in 1 mounting. Provides flexible installation with standard flat and gutter mounting.
- Models 3208-WRFS and 3208-HRFS include a freeze sensor that prevents the irrigation system from starting when temperatures drop to 37°F (3°C) or below.
- Quick Installation. The Wireless Rain-Freeze Sensor 3208-WRFS provides the advantage of extremely quick installation and eliminates unsightly wires.

## K-Rain's Rain/Freeze and Rain Sensors ensure wasteful and harmful over-watering does not occur — keeping your landscape beautiful.

After a set amount of rain has fallen and/or freezing temperatures exist (for models with freeze sensor), the sensor will trigger the controller to suspend watering.

Unlike other Rain Sensors on the market, K-Rain's wireless rain-freeze sensor (model 3208-WRFS) can be paired with multiple K-Rain Pro EX 2.0 Wifi enabled controllers within range, providing an additional value for the end user. These rain sensors are designed to work with closed circuit timers.

### Models

<b>3208-HRS</b>	Hardwired Rain Sensor
<b>3208-HRFS</b>	Hardwired Rain-Freeze Sensor
<b>3208-WRFS</b>	Wireless Rain-Freeze Sensor for WiFi enabled Pro EX 2.0
<b>3208-WRFS-KIT</b>	Wireless Rain-Freeze Sensor and RF Module for WiFi enabled Pro EX 2.0

### How to Specify

Model Number: **3208-HRFS**

Description: **Hardwired Rain-Freeze Sensor**
