

PRO-LC

WiFi-Ready Irrigation Controller

The Pro-LC Controller is designed for residential and commercial applications.

Feature-packed, user-friendly and now a WiFi-ready controller.

The PRO-LC is available in 4, 8 and 12 stations and in indoor and outdoor models. Add the new 3100-BRIDGE (sold separately) and this feature-packed controller can be managed from your smart device using WiFi technology. Other user-friendly features:

- Easy to follow programming
- A full program screen display listing watering days, number of start times, number of stations and special programming
- Large LCD display; rain/freeze sensor compatibility
- Lighting feature allows you to create a start time and run time to operate a lighting system.
- Weather IQ® uses local weather conditions to bypass the irrigation schedule in wet conditions
- Seasonal adjust for water conservation
- A buried valve locator for easy maintenance
